Description

+++ STOCK ‘N FLOW GURU +++

Imagine a world in which every product you order arrives exactly when you need it. This is where our journey into the world of warehouse logistics begins. As a warehouse logistics specialist, you not only ensure that everything is in the right place, but also that the logistics processes run smoothly.

But what makes the work really exciting? It is the combination of physical work and the use of state-of-the-art technologies. Imagine you are in the warehouse, scanning goods and making sure they are stored safely. At the same time, you use computer systems to document what is where and how it gets to the customer.

Now think about the moment when you start your apprenticeship. It’s September 1, a new chapter in your life. Three years full of learning, challenges and growth await you. Not only will you become an expert in warehouse logistics, but you will also open the door to numerous opportunities in the logistics industry. Become part of our team and start your career at DENKINGER.

Start of training
1. September

Duration of training
3 years

School-leaving certificate
Intermediate school-leaving certificate or good secondary school-leaving certificate
