Description

Do you have an overview when others lose touch?

As a fast-growing, medium-sized logistics company with a strong customer focus and a clear vision for the future, we are looking for you as a**part-time or full-time Project Manager Construction & Real Estate (m/f/d) in Ehingen an der Donau**. In this newly created key position, you will manage our construction projects – and actively shape the future of DENKINGER.

Responsibilities

- Holistic management, support and monitoring of our construction and real estate projects – from planning to execution and handover
- Coordination and management of all internal and external project participants (planners, architects, specialist engineers, authorities, construction companies)
- Ensuring compliance with costs, deadlines and quality standards
- Creation, review and evaluation of project and execution plans
- Responsibility for approval processes and coordination with authorities
- Application, support and follow-up of subsidies in the area of building and energy efficiency
- Supervision of construction work, regular site inspections and documentation of project progress
- Tendering, evaluation and awarding of construction and service contracts
- Contract management and control of supplements and amendments
- Risk management and early initiation of countermeasures in the event of project deviations
- Reporting to the management and regular project documentation

Qualifications

- Completed technical vocational training (e.g. construction technician, technical draftsman, site manager, master craftsman in the main construction trade) with appropriate further training
- Experience in project management or coordination of construction or real estate projects, ideally in commercial or industrial construction
- Knowledge of construction processes, approval processes and relevant standards and regulations
- Experience in applying for and managing subsidies (e.g. energy efficiency, sustainable building concepts) desirable
- Confident use of common planning and project management tools (e.g. MS Project, basic CAD knowledge, tendering software)
- Structured, independent and solution-oriented way of working
- Strong communication skills and a confident manner towards authorities, planners, service providers and internal stakeholders
- Negotiation security for tenders and contract awards
- High level of commitment, sense of responsibility and assertiveness

- Class B driver’s license and willingness to occasionally travel to construction sites and business trips

Job Benefits

- A responsible **key position** with a lot of creative freedom in a growing family business
- **Attractive remuneration** that does justice to your responsibilities
- A **modern company car** that you can also use privately
- Access to attractive **corporate benefits** and the **EGYM Wellpass**
- An open, appreciative working environment with flat hierarchies and short decision-making paths
