Description

+++ HIGHWAY HUSTLER +++

Imagine you're sitting at the wheel of a huge truck, the landscape passes you by, and you know you're playing a central role in the world of logistics.

This is no ordinary job, this is a vocation for those who are not only fascinated by the power of engines, but also by the responsibility they bear. Training as a professional driver at DENKINGER opens the door to a future full of opportunities.

From day 1, you will be taken by the hand by professionals. You will not only learn how to maneuver a 40-ton truck safely through the area, but also how to load and secure goods correctly.

Forklift and crane license? Of course they are also part of it! It's about much more than just driving; it's about mastering the entire logistics chain in order to be able to say at the end of the day: "I did it!"

But what makes a really good professional driver? It's a passion for big machines, yes. But without reliability, a friendly demeanor and a strong sense of responsibility for each individual load, you won't get very far.

If you find yourself in these words, then you've come to the right place. Your future on the roads of Europe begins on September 1. Are you ready to become part of our team? Then don't hesitate and send us your application. We look forward to hearing from you.
